PROFILE

Creative Product Designer with 2+ years of experience designing multilingual SaaS platforms and visual assets at Ailaysa. Skilled in user-centered design, responsive UI, and cross-functional collaboration across web, mobile, and enterprise products.

PROFESSIONAL EXPERIENCE

Product Designer 06/2023 – Present | Chennai, India

Ailaysa Technologies

Product Design

- Designed and optimized user-centric interfaces for Ailaysa's Writer, Transeditor, Speech, and Projects apps, improving cross-product consistency and reducing user friction across key workflows.
- Contributed to a **4× increase in daily active users** by improving usability, refining user flows, and designing consistent cross-product experiences.
- Designed **10+ AI modules** across the Ailaysa platform, translating complex machine-learning capabilities into intuitive and user-friendly interfaces.

UX / UI Design Execution

- Created wireframes, interactive prototypes, and high-fidelity UI in Figma, collaborating with product managers and engineers to ship features with pixel-perfect precision and faster design-to-development turnaround.
- Streamlined design workflows by organizing reusable components, documentation, and style guidelines, improving team efficiency and reducing design duplication across product verticals.

AI Product Initiative

- Led the **end-to-end experience design** for **ChaiReader**, an **AI-powered reading and chat product**, delivering a scalable, multilingual UX tailored for global publishers and digital content platforms.

Marketing & Brand Design

- Produced marketing visuals, print materials, and event-ready booth graphics for international exhibitions, strengthening brand visibility and supporting lead-generation efforts.
